

EtherCAT Technology Group with free EtherCAT Technology Introduction @ Indumation.be 2013

From April 24-26, 2013 the EtherCAT Technology Group (ETG) will be represented at this year's edition of Indumation.be at Kortrijk Xpo, Belgium. In addition to ETG's informative tradeshow appearance (hall 6, booth no. D04) visitors can profit from free of charge EtherCAT technology introduction lectures on April 24 and 25, 2013 from 3 to 4 pm at Kortrijk Xpo Meeting Center 4.

After the successful premiere of Indumation.be 2012 the EtherCAT Technology Group is on-site at this year's exhibition at Kortrijk Xpo in Belgium – with an extended version of its general tradeshow program: Besides its participation with the ETG Info Booth the EtherCAT Technology Group additionally offers two free of charge introduction presentations about EtherCAT. Oliver Fels, who conducts the lectures as ETG's speaker, explains: "We would like to invite everybody to learn about EtherCAT, the Ethernet fieldbus that provides industry leading performance, flexibility and cost advantages. We will look at the unique functional principle 'processing on the fly' and other beneficial features of EtherCAT technology."

In addition to technological topics the one-hour presentation in English language covers the activities of the EtherCAT Technology Group in Belgium as well as worldwide. Of course, there will be plenty of time left to discuss and answer questions about EtherCAT technology and ETG. The EtherCAT experts at ETG's tradeshow booth are looking forward to explain the technology and inform interested visitors about EtherCAT and the EtherCAT Technology Group in detail.

Besides the presentation at the ETG Info Booth the EtherCAT Technology Group offers two free of charge EtherCAT technology introductions at Indumation.be 2013.

About EtherCAT Technology Group (ETG):

The EtherCAT Technology Group is an organization in which key user companies from various industries and leading automation suppliers join forces to support, promote and advance the EtherCAT technology. With over 2,300 members from 56 countries the EtherCAT Technology Group has become the largest fieldbus organization in the world. Founded in November 2003, it is also the fastest growing fieldbus organization.

About EtherCAT®:

EtherCAT is the Industrial Ethernet technology which stands for high-performance, low-cost, easy to use with a flexible topology. It was introduced in 2003 and has been an international standard since 2007. The EtherCAT Technology Group promotes EtherCAT and is responsible for its continued development. EtherCAT is an open technology: anyone is allowed to implement or use it.
